

## ProDrive Founder, Dr. Turner on Tooth Preparation for Successful CAD/CAM Restorations

### Dr Derek M. J. Turner

Inventor & Founder of ProDrive Systems

Dr. Turner is an Ottawa dentist with over 35 years experience in private practice. He pioneered multi-dentist group practice and management in Canada, and was also a forerunner in the use of computers in dental practices in 1979. In the 1980s, while maintaining a busy dental practice, Dr. Turner cooperatively built and managed 13 dental offices in Ottawa. He is an invited Associate Instructor at the PCC Advanced Dentistry Courses in Provo, Utah. A leader in CAD/CAM restorations, Dr. Turner showcases his expertise through his participation in various speaking engagements. In 2002, he conceived of the patented drive system for air-driven dental handpieces and maintains an active role in the company he founded.

Dr. Turner received his BSc from the University of Ottawa in 1968, and his Doctor of Dental Surgery (DDS) from the University of Toronto in 1972.

### The ProDrive System

The Logical Evolution in Dentistry

Unlike traditional friction grip design, ProDrive's revolutionary upgrade turbine and triangular bur system lock together for noticeably improved cut performance, superior control and improved precision.

You can experience ProDrive two ways, the ProDrive Upgrade Turbine for leading brand handpieces, or the ProDrive High-Speed Handpiece (standard or mini head). Both options work with the triangular shank ProDrive Bur which is specifically designed to engage with ProDrive Upgrade Turbines and ProDrive High-Speed Handpieces.

### Get your Best CEREC® Prep with ProDrive

#### The DARN Principle\*

Four Features of a CEREC Prep

**D**ivergent Walls

**A**dequate Tooth Reduction

**R**ounded Transitions From Horizontal to Vertical Walls

**N**inety Degree Exit Angles

*Use the DARN principles with ProDrive to create outstanding CEREC preps!*

\* Developed and used by Dr. Derek M J Turner.

*"With ProDrive you can do: veneers, inlays, onlays, full coverage crowns. Basically, anything that can be done previously, you can just now do easier, faster and more precise."*

**Sameer Puri, DDS**
