

Round, Evolved.

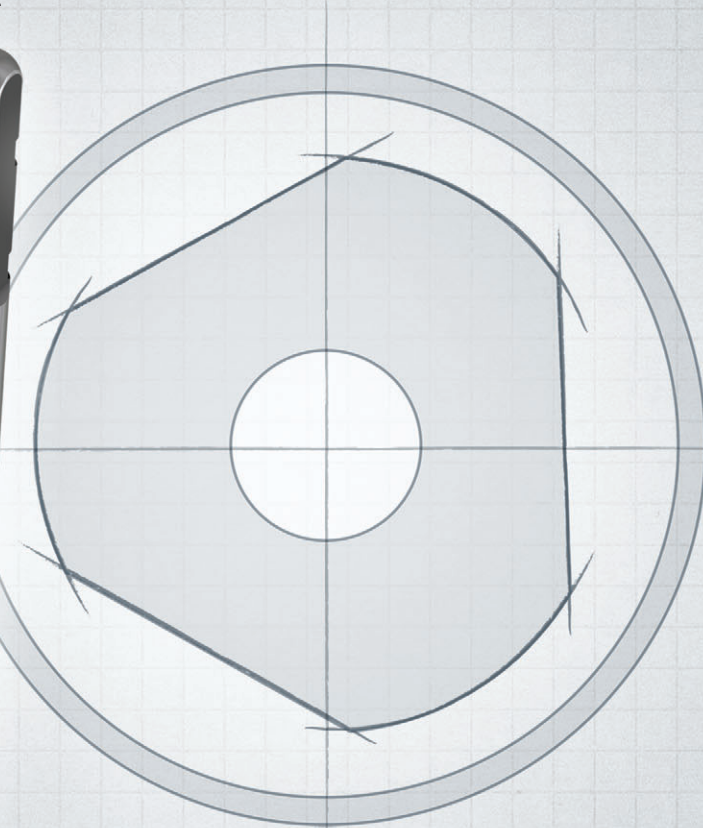

Still using the old stuff? Evolve your practice.

Triangular Bur Shank

- Locks into turbine for superior cut speed, control and precision.

3mm Bur Lengthening Feature

- Safe bur extension for difficult to reach areas.

540 Carbide & Diamond Burs

ProDrive, the Logical Evolution in Dentistry.

Unlike traditional friction grip design, ProDrive's revolutionary upgrade turbine and triangular bur system lock together for noticeably improved cut performance, superior control and improved precision.

You can experience ProDrive two ways, the ProDrive Upgrade Turbine for leading brand handpieces, or the ProDrive High-Speed Handpiece (standard or mini head). The ProDrive High-Speed Handpiece is the only handpiece to incorporate the ProDrive Turbine. Both options work with the triangular shank ProDrive Bur which is specifically designed to engage with ProDrive Upgrade Turbines and ProDrive High-Speed Handpieces. **Experience faster cutting, superior control & improved precision.**

Evolve your practice. Contact us today to experience the ProDrive difference.
